SAFETY DATA SHEET Honeywell Genetron® 409A 00000009896 Version 2.6 Revision Date 06/07/2014 Print Date 01/23/2015 **SECTION 4. FIRST AID MEASURES** Inhalation : Move to fresh air. If breathing is irregular or stopped. administer artificial respiration. Use oxygen as required, provided a qualified operator is present. Call a physician. Do not give drugs from adrenaline-ephedrine group. Skin contact : After contact with skin, wash immediately with plenty of water. If there is evidence of frostbite, bathe (do not rub) with lukewarm (not hot) water. If water is not available, cover with a clean, soft cloth or similar covering. If symptoms persist, call a physician. Eve contact : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If symptoms persist, call a physician. Ingestion : Unlikely route of exposure. As this product is a gas, refer to the inhalation section. Do not induce vomiting without medical advice. Call a physician immediately. Notes to physician Treatment Because of the possible disturbances of cardiac rhythm, 2 catecholamine drugs, such as epinephrine, should be used with special caution and only in situations of emergency life support. Treatment of overexposure should be directed at the control of symptoms and the clinical conditions. Treat frostbitten areas as needed. SECTION 5. FIREFIGHTING MEASURES : The product is not flammable. Suitable extinguishing media ASHRAE 34 Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Specific hazards during : Contents under pressure. firefighting This product is not flammable at ambient temperatures and atmospheric pressure. Page 3 / 16
